## pedeSOLAR – increased safety for pedestrians!

The optional LED lighting for pedeSTRAIL level crossings called pedeSOLAR helps pedestrians and cyclists to orientate better. This new technology is pre-installed directly at our plant and supplied to you finished and complete. The LED lighting consists of a base body, photovoltaic and a battery. The retaining plate is made of stainless steel.

- ◆ Technology: solar-powered LED
- ◆ Temperature range: -20°C (-4°F) to 85°C (185°F)
- ◆ Output at full power: up to 240 hours without additional solar radiation
- ◆ Service life: more than 8 years
- ◆ Colour of reflectors: yellow, red, white, green, blue (two colours per cover are possible)
- ◆ LED configuration: one-sided and two-sided reflectors
- ◆ Max. visibility: approx. 900 m > depends on the course of the road
- ◆ Charging time: approx. 3 hours on a sunny day
